

### IN THE DRAWING

Please accept the substitute formal drawings for the informal drawings filed with the original application.

### REMARKS

Applicants respectfully request preliminary amendments be made to the specification of the United States patent application identified above and provided herewith. The proposed amendments are made to the original specification of the parent application Serial No. 09/754,594, filed on January 5, 2001 from which the present application claims priority under 35 U.S.C §120. The proposed changes are requested to eliminate the claims allowed under the parent application and to put the specification in a form acceptable to the United States Patent and Trademark Office. Applicants respectfully submit that the requested amendments do not add any new matter to the present application.

Respectfully submitted,

By Gene D. Fleischhauer
